

# Chamonix Hockey Club Tournaments

## Directory

Dear coaches,

Due to the delayed arrival times of the teams, we will not organize a meeting for the Tournament Directory. This message replaces it, and recalls our rules and philosophy:

The Chamonix Hockey Club tournaments are friendly tournaments aimed at children's development. The goal is to bring together teams with the same goal: the growth and development of our young people. We therefore insist on every team involved to enter the tournament in this spirit: the goal is not to win but above all to advance players, ALL PLAYERS.

For this, we ask you to respect and to make respect to your players and staff the following instructions:

- Bringing 3 lines means playing with 3 lines. Coaching is only tolerated in the last minutes of a match. The rest of the time, all lines must play fairly. We also ask you to respect the playing level of each line, so that the best players in a team face the best players on the other side.
- Respect the referees: we take advantage of this tournament to train young referees from our club, the referees are not necessarily experienced. The respect of the referees by the adults conditions their respect by children. It is therefore absolutely forbidden for coaches and managers to insult referees or to challenge their decisions. A team will not be re-invited in case of inappropriate attitude of coaches or parents towards referees.
- Respect tournament volunteers: The tournament mobilizes a large number of volunteers. We attach great importance to children being correct and polite to them. Thank you for helping us by raising awareness on this issue.
- Respect locker rooms and premises: we ask each team to clean the changing room before departure on the last day.
- Respect schedules: the organisation of the tournament can not afford to overrun the planing. Please be on time for the games

The rules of this tournament are sent to you as an attachment. Please read them thoroughly before your arrival.

In case of problems, tournament directors are:
